

BGCANTOR ON-DEMAND

Get the application-ready data that you need, when you need it, and pay only for what you need

BGCantor On-Demand is a fast, flexible and cost-effective way to access our high quality inter-dealer broker data. With industry standard web services and easy access via www.BGCantorOnDemand.com, BGCantor Market Data's benchmark Treasury, fixed income, foreign exchange, futures, and credit derivatives data can be accessed easily and quickly over the internet. BGCantor On-Demand enables rapid integration to your applications and adds immediate value to your business.

Rapid Start-Up: Start using the data in minutes. Access the data directly via spreadsheet or integrate it to your applications with ease.

Hassle-Free Data Access: BGCantor On-Demand's industry standard W3C Web Services allow for easy deployment to your development environment. No expensive infrastructure setup. No dedicated circuits. No proprietary API development. No specialized hardware. No hassles.

Pay-As-You-Go: Pay only for the data you request*. We make it easy and cost-effective to select data by asset class, currency, and region. You pay only for what you need to satisfy your specific data requirements.

Multi Asset Class Access: Get access to a broad array of instruments for the same subscription fee regardless of the asset class. Data is sold on a transaction basis scaled with the actual amount requested; not by the type of data requested.

Real-time and historical data available on BGCantor On-Demand includes:
