

**Cantor Market Data Announces Distribution Agreement
with QUICK Global Information of Japan**

Cantor to Provide Real-Time U.S. Treasury Pricing Through QUICK ActiveManager Platform

TOKYO, JAPAN – August 28, 2006 – Cantor Market Data, LLC, a subsidiary of Cantor Fitzgerald, L.P. and the exclusive source of real-time fixed income, derivative, and foreign exchange data sourced from eSpeed and BGC, today announced a distribution agreement with QUICK Global Information Corp. (QGI), a subsidiary of QUICK Corp., Japan, to deliver Cantor Eye across the QUICK ActiveManager Treasury Package Platform. Cantor Eye, which will be included in the core ActiveManager Treasury Package, provides real-time U.S. Treasury and European Government Bond pricing derived from eSpeed and BGC's renowned government bond brokerage businesses. The service furnishes two-sided markets for the entire U.S. Treasury curve, as well as for key European Government Bond curves, fulfilling a customer's need for reliable government securities pricing.

Cantor Market Data's premium tradable U.S. Treasury and European Government Bond Data products, as well as other Cantor data products, will be available as optional services on QUICK's ActiveManager platform. QGI chose Cantor Market Data for its premier position as a provider of fixed income and derivative market data.

"QGI is pleased to be the first company to bundle Cantor Eye into their core Treasury package," said Hirotaka Watanabe, President of QUICK Global Information Corp. *"We look forward to offering Cantor prices as part of our fresh and efficient solution for today's market data user."*

Bernard A. Weinstein, Senior Managing Director of Cantor Market Data, commented that *"Cantor Market Data is pleased to become a core component of the QUICK ActiveManager Platform, and we look forward to working further with their outstanding sales team as a distributor of our premium, tradable data services."*

About Cantor Market Data

Cantor Market Data, a division of Cantor Fitzgerald, is one of the world's premier suppliers of real-time and historical fixed income and derivative pricing data. Cantor Market Data is the exclusive source for market data derived from eSpeed and BGC Partners. Cantor Fitzgerald first pioneered live pricing data for fixed income markets 30 years ago, and now provides data priced from over \$265 billion in daily fixed income transactions. Data services from Cantor Market Data are available on QUICK, Reuters, Bloomberg, CQG, Infotec, Thomson and various direct solutions from Cantor Market Data, including G3 Vision.
