Tullett Financial Information Launches Swapmarker™ - North America, Its Benchmark Usd Interest Rate Swaps Service On Bloomberg

LONDON, September 16th 2002 - Tullett Financial Information (C.I.) Ltd, has today launched SwapMarker™ - North America on Bloomberg. SwapMarker™ - North America provides The Benchmark USD Interest Rate Swaps information sourced from the Tullett & Tokyo Liberty Group, whose information has long been regarded as the principal global reference data for the USD Swaps market since the mid 1980's and a major contributory factor in the markets development and tremendous liquidity growth.

SwapMarker™ - North America will also feature Cantor Fitzgerald's market-leading Benchmark US Treasury data for Bloomberg customers subscribing to Cantor Market Data's US Treasury or European Government Bond products.

SwapMarker™ - North America's launch on Bloomberg has been long-awaited by the market," said David Mukerji, Director and Global Head of Sales for Tullett Financial Information. "We are delighted to offer SwapMarker™ - North America on Bloomberg which will allow users to combine our Benchmark Swaps information with the powerful functionality and sophisticated analytics of a Bloomberg terminal".

Mukerji added "Bloomberg's tremendous presence within the Fixed Income and Capital Markets arena combined with the availability of SwapMarker™, will give the market what it has long sought, greater flexibility to access, view and analyse this key reference data".

Jeff Bandman, Senior Vice President, Cantor Fitzgerald and Global Head of Sales, Content & Operations, Cantor Market Data commented, "Since announcing our joint product agreement with Tullett Financial Information in March of this year, we have seen tremendous demand for Cantor Market Data within the SwapMarker™ product, which is widely regarded as the definitive US Treasury and Interest Swaps information combination available."

Tullett Financial Information recognises the interdependency of financial products and as well as combining information sourced from the Tullett & Tokyo Group and Cantor Fitzgerald, SwapMarker™ - North America will also shortly be available with the Bloomberg Bond Trader (BBT) US Treasury information inclusive within the service via Bloomberg.

"We have seen significant demand for SwapMarker™ - North America from our customer base" said Max Linnington, Head of Sales for Bloomberg, North America, "and we are delighted to be able to meet that demand with the inclusion of this Benchmark information on the Bloomberg Professional service. The forthcoming inclusion of Tullett Swaps along with BBT US Treasury information together with the Cantor US Treasuries & Tullett Swaps page, in addition to Bloomberg's superior analytics will provide our customers with unparalleled flexibility and choice".

The comprehensive service includes real-time US Treasury Bonds, Swap Spreads and Interest Rate Swaps, USD Basis Swaps, Caps and Floors and Swaption Volatilities. Also included are Canadian Treasury Bonds, Swap Spreads and Interest Rate Swaps, Canadian Basis Swaps, Caps, Floors and Swaption Volatilities and is now available via Bloomberg on free trial.

To access the SwapMarker™ main menu on your Bloomberg Professional terminal type SMKR then <GO>
